and wife, J. H. Mitchell, wife, 4 children and servant, Al
Winkler, Miss Hattie Bacon, Rev. S. Y. Blocker, Master G.
Lange, John Humm, Samuel Oliver, Daniel Foster, Jr.,
R. Blackwell, S. Michael.

For STEAMER ELIZA ANDERSON, for Puget Sound—J. Barker,
R. H. Rodick, Washington, Webster, Wiley, J. Christ
mas, J. McArthur, Quinn, Kates, Humberbrook, Smith, J.
Wheeler, W. S. Grady, Calkin, J. J. Humm, D. J. Humm, W.
Spencer, C. McLane, McDonald, S. J. J. W. Rhodes,
Dyer and 6 others.

IMPORTS.
Per STEAMER WILSON G. HUNT, for Puget Sound—27 sheep
26 hives, 1 horse.

Per STEAMER ELIZA ANDERSON, for Puget Sound—2 hogs,
219 sheep, 4 cattle.

CONSIGNEES.
Per WILSON G. HUNT, for Puget Sound—F. Reynolds,
Moody & Co.

Per ELIZA ANDERSON, for Puget Sound—J. Jackson, J.
Murray.

BIRTH.
At New Westminster, June 29th, the wife of A. W. S.
Black, Esq., of a son.

Angela College—The Examination of the Pupils and Distribution of Prizes.

A large number of ladies and gentlemen, the relatives and friends of the young ladies pupils, assembled at the Angela College yesterday to hear the exercises and witness the distribution of prizes. Amongst these present were His Honor the Chief Justice and the hon. Attorney General, Messrs W. J. McDonald, E. Alston, A. Lowndes, W. J. Tolmie, R. Finlayson, the Very Rev. Dean Cridge, Revs. Hayman, Jenns and Gribbell. The examinations were concluded with vocal and instrumental performances. They were of a very high order and evinced a style of education most creditable to the excellent institution, where such superior attainments may be acquired. When the exercises were concluded, the Very Rev. Dean addressed the meeting, and stated that the school would re-open under the auspices of Miss Gribbell as Lady Principal on Monday, August 2d. He said they were about to lose Miss Pemberton, who, for some years, had been the presiding genius of the institution, and under whose devoted management the machine had reached its present admirable efficiency. She had only continued her charge since last Christmas in order that the arrangements made by the Bishop for her successor could take effect. He had no doubt that this, like every other arrangement which the Bishop had made, would prove successful. From Miss Gribbell's high qualifications and experience we had every reason to believe that she would worthily carry on the work which her predecessors had so well begun. The hon. Attorney General, in the absence of the Chief Justice, distributed the prizes, accompanying each by happy and appropriate remarks which sensibly added to the pleasure of the young recipients. The proceedings terminated on the presentation by the Chief Justice of an address to Miss Pemberton on the occasion of her retirement from a scene of labor which she had so well filled. We feel pleasure in adding that the pupils throughout displayed a degree of perfection in the various branches of education which reflects the very highest credit on the talents of Miss Pemberton and will always associate with her superintendence of the College the highest esteem and regard of all interested. The prizes were as follows:

- FIRST CLASS.**
Sarah Todd—1st Prize in Arithmetic, 1st do. in French, 2nd do. in Scripture, 4th do. in music.
Kate Woods—1st Prize in Astronomy, 2nd do. in Scripture.
W. McKenzie—Writing Prize.
Selina Smith—1st Music Prize.
Annie Rhodes—1st Prize in singing.
Mary Munro—Good Conduct and General Improvement.
Lizzie Munro—Drawing.
Susette Wark—Needlework.
Annie Finlayson—Needlework.
Zilpha Pitts—Singing Prize.
Jane Kinsman—General Improvement.
Nellie Seelye—Diligence.
Mary Elliott—General Improvement.
- SECOND CLASS.**
Florence King—1st Prize in marks, 2nd Prize in French.
Annie Ella—Best Reading, Writing and Spelling in her Class.
Emily Bates—Arithmetic.
Ethel Pitts—Prize in music.
- THIRD CLASS.**
Pattie Rhodes—1st Prize for Diligence and General Improvement, 2nd Prize for French.
Emily Cooper—Geography.
Annie Jenkinson—Diligence.
Sarah Waldron—Writing.
Bertha Piper—Reading.
Anne Harvey—Regular attendance.
Annie Wootton—General improvement.
Emma Holloway—For attention to her studies.
Mary J. Holloway—For attention to her studies.
Alice Barnard—do do

VICTORIA HOUSE.—Just received by Express the New and Elegant Lace Scarfs, (Garde Francaise, Chevreuse and Incredibly), Real Lace Shawls, Irish Poplins, Gilt Silks, Satins, Ribbons, Trimmings, Buttons, Flowers, Trimmings, Lace Falls, Silk Serges, New Dress Materials, and a variety of Fancy Goods; also a complete assortment of Ladies' Skirts and underclothing.

The Steamer Wilson G. Hunt will not sail for Puget Sound until Saturday morning at 4 o'clock, when she will carry over a number of 4th of July excursionists from this place.

The Chamber of Commerce will meet on Tuesday next, to consider the Confederation question.

ARRIVAL FROM PORTLAND.—The steamship Gussie Telfair, Capt. Sholl, arrived from Portland via Port Townsend and San Juan Island, at 9 1/2 o'clock last night, bringing about 30 passengers and a fair freight. The Telfair left Portland on Saturday evening last and connected at Astoria with the steamship Oriflamme from San Francisco, receiving on board the latter's mails and passengers. On the way up the coast, passed the steamer G. S. Wright, and rounded Cape Flattery at 9:25 p. m. on the night of the 28th. Among the passengers by the Telfair are Major Francis, U. S. A., and wife, Capt. Sholl and Purser Goodhue, have our thanks for customary favours.

NORTH PACIFIC RAILROAD SURVEY.—From Mr. Philip Ritz, who called upon us last evening, we learn that several of the directors and business men of the North Pacific Railroad Company, are expected to arrive here within the next few days, for the purpose of making an exploring survey of the route from Puget Sound to Lake Superior. Upon their arrival here they will proceed at once to Olympia and to points down the Sound. Returning, they will go up the Columbia to Walla Walla and thence by way of Pen d'Oreille Pass, Helena and Fort Benton to St. Paul. Upon this trip the preliminary survey will be made preparatory to locating the actual route and driving the stakes. Mr. Ritz assures that the N. P. R. R. Co. means business. *Portland Oregonian.*

"GREYHOUND" CASE.—Messrs Reynolds and Lascelles appeared on remand before the Police Court yesterday morning to answer to the charge preferred against them by J. Lammon of conspiring to defraud him of the horse "Greyhound." Mr. Wood, the defendant's counsel, asked for a discharge on the ground that the complainant had left the Colony. The case was dismissed and Lammon's recognizance ordered to be estreated.

THE SCHOOL ACT.—We learn that the machinery of the new School Act is about to be set in motion, and that the Commissioners are now engaged in arranging the details. Several of the districts have expressed a willingness to accept a subsidy of \$500 per annum from the Government, and provide the remainder of the sum required to defray the working expenses from their own resources.

We understand that Capt. Hornsby, of the American bark Delaware, has applied to the Administrator of Government for authority to ship as mate on board his vessel Mr. White late mate of the ship Alaska. Capt. Hornsby, we also learn, has expressed a willingness to enter into bonds that Mr. White shall not return to this Colony.

THE SALT SPRING ISLAND MURDER.—A large delegation of Songish Indians waited on the Administrator of the Government yesterday to petition for a commutation of the sentence of death passed upon Tschunahaset, the Chemainus Indian convicted of the murder of Wm Robinson. The delegates were assured that their prayer would be taken into consideration.

COLLEGIATE SCHOOL.—The public examination of the boys of this Institution took place yesterday. The distribution of prizes will take place this afternoon at 3 o'clock, at the School. The public is invited to attend. The prizes will be presented by His Lordship the Chief Justice.

CENTRAL SCHOOL EXAMINATION.—The examination of the pupils of the Central [Free] School, John Jessop, Esq., Principal, will take place to-day, commencing at 9 a. m. The public are invited to be present.

The New York Herald is out squarely against President Grant, and says that "his resolute purpose has become puerile vacillation; his common honesty is nepotism or worse, and common sense is the quality of all qualities that the administration is most without."

QUICK TRIP.—A letter received from Mr. T. H. Long, announces his safe arrival at Flushing, near New York, in 7 days from Sacramento, Cal.

THE SAN JUAN ISLAND MURDER.—A Military Commission to try Watts, the slayer of Hibbard, is expected to sit at San Juan Island shortly. The prisoner is kept in close confinement at the American Camp.

FUNERAL.—The funeral of the late Julius Mitchell took place yesterday at 1 o'clock, and was attended by all the Jewish residents of this City. The remains were interred in the Jewish Cemetery.

TALL SQUIRTING.—The "Tigers" steam engine was out for drill last evening, and performed some powerful play. The Tigers keep their machine in fine order.

THE U. S. CUSTOMS REGULATIONS are of such a troublesome character that the Portland steamers are forced for their safety to visit Puget Sound before touching at Victoria.

SUBSCRIPTION.
EDITOR BRITISH COLONIST:—I will thank you to make the following acknowledgement of the money collected for Charles Elder, as it has been increased since previous statement.

RECEIVED.	PAID.
St. Andrew's Society \$15 50	Elder for supplies \$ 8 00
Calderonian Society 15 00	Meat for clothing 15 00
Messrs. Smithville & McKay 35 50	Pocketbook & pen 1 00
Messrs. Murdoch and Mady 64 20	Passage to San Francisco 20 00
Messrs. Murdoch and Mady 8 50	Dr. to Mr. Wright 105 00
Messrs. Murdoch and Mady 84 50	Expense of draft 1 60
From Mr. Pamphlet 14 00	Cash to Elder on parture 10 00
	\$220 75
Examined and found correct.	
JOHN GORDON MCKAY	THOS. BOMERVILLE
JOHN MURDOCK	

A NEW WHALING ENTERPRISE.—Two men representing San Francisco capitalists came upon the last steamer. They propose to embark upon a whaling enterprise in these waters, where the finny monsters abound in vast numbers. There are already two companies in successful operation here.

The Enterprise got off at 12:15 o'clock yesterday. She carried 20 passengers and 60 tons of freight, a portion of which was flour for the Upper Country—a pretty sure sign that a scarcity is anticipated in consequence of the drought.

HOT.—Warm is no name for the state of the atmosphere yesterday morning. In the sun it was positively hot, and anytime before one o'clock cakes might have been fried on the flagstones in front of the Bank of British Columbia building. The thermometer at 12 o'clock, was 84° in the shade.

The G. S. Wright.—A dispatch from Seattle last evening announces the arrival there yesterday of the G. S. Wright, and her departure for this port at 9:30 o'clock.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DISPATCHES.

Europe.
MADRID, June 27.—In the Cortes three Republican members were warned that their presence in the Chamber was permitted as an act of patriotism, but that they could not be tolerated as accomplices in a scheme for establishing a Republic. That the present combination of affairs will not be long continued, and it would become necessary to repress the people or anarchy would be the result.

BREST, June 27.—Up to last evening the Great Eastern had made 678 knots from Brest, and paid out 775 knots of cable. No fault has been found in the cable; the interruption noted a few days since is now supposed to have been owing to imperfect land communications. The signals are now perfect and all well.

LONDON, June 28.—The House of Commons passed the Bankruptcy Bill to a third reading. In the House of Lords to-night, Baron Westbury gave notice of an amendment to the Irish Church Bill, granting out of the present revenue £2,000,000 to Catholics; £1,000,000 to the Presbyterians, and the balance to the Irish Church.

The Queen gave a public breakfast in honor of the Viceroy of Egypt, at Buckingham Palace.

LIVERPOOL, June 28.—According to official reports, 2800 emigrants left this port for America last week.

Eastern States.

BUFFALO, June 28.—There was a violent storm here last night; it is feared much damage is done to shipping in Lakes.

PHILADELPHIA, June 28.—Tornado yesterday partially demolished the sixth street depot; a brick house was badly injured. The Chase Blue works were unroofed and several other houses; no lives lost.

NEW YORK, June 28.—There were four deaths from sun-stroke to-day. During the storm yesterday much damage was done in his vicinity; the sea-side house at Rockaway was struck with lightning; eight persons were stunned and only restored with great difficulty.

ST. LOUIS, June 28.—Dispatches say the country west of Junction City, Kansas, is inundated in many places houses, stock and crops were washed away. It is reported that 25 persons were drowned. The town of Oberlin was flooded and two persons drowned.

Canada.

WATERLOO, CANADA, June 28.—The heavy rains yesterday gave rise to great freshets equal to that of early spring. Five mill-ams that stood fast, three yielded to the present freshet. A large number of bridges and fences have been carried away; the damage to farm property is very considerable.

OTTAWA, June 28.—The official gazette contains a proclamation setting apart July 1st in the Dominion as a day of general jubilee and holiday for the present and subsequent years.

California.
SAN FRANCISCO, June 28.—Arrived—Str. Pacific, 3 days from Portland.

Sailed—Steamer Fideliter, Sitka; bark Moneta, Port Discovery; schr. Clara Light, Steilacoom.

DELAYED DISPATCHES.

Eastern States.

BALTIMORE, June 17.—The remains of Junius Brutus Booth were removed to Green Mountain cemetery, where three of his children and John Wilkes Booth will be buried.

WASHINGTON, June 18.—The Medical Society of the District of Columbia to-night voted over five to one against the application of Drs. Jarvis and Augustus for admission as colored physicians.

WASHINGTON, June 19.—The Bricklayer's Union expelled six members because they persisted in working with two colored bricklayers in the Washington Navy Yard.

Miss Annie Suratt was married this morning.

The printers in the Government Printing Office this afternoon adopted a resolution declaring that Douglass, colored printer, was not a rat, he having been deprived of the privileges of membership by unwarrantable prejudice in regard to color, and denouncing the National Union for prejudging the case while under consideration by a subordinate Union.

British Columbia and the American Railway System.

The managers of the Northern Pacific railroad are trying to raise the means and get at work on their line this very season; but, according to Mr. Bowles's new volume, "Our New West," the North West, of the Columbia river valley and Puget Sound, of Oregon, Washington and British Columbia, will first be brought into the railway circle by means of a branch from the present road near Salt Lake. Thus he describes the feasibility of this route, and the plans of both companies owning the present Pacific railroad, to annex the Northwestern regions to their lines:

The part which the navigation of the Columbia river is, to play in facilitating railroad connections with the northwest and settling the lines and points of continental commerce, is an important one. With the help of the two short railroad portages around the rapids, where the river breaks through the mountains, steamboats run up the Columbia continuously to the junction of the Snake or southern branch with the northern fork, a distance of four hundred miles from the mouth of the river. This is the present starting point for land travel and freight from western Oregon to Idaho and southwestern Oregon. The business of these boats amounted in 1864 to twenty-two thousand tons of merchandise and thirty-six thousand passengers. The navigation company owned eighteen or twenty steamboats, the railroad portages, extensive warehouses, altogether a property of two million dollars, all made out, made out of the profits of the business. By a wagon road of one hundred and fifty miles north from the junction of the forks of the Columbia, we can reach a portion of the northern branch, which is navigable for two hundred miles farther north into the very centre of British Columbia and the Hudson Bay company's territory; and already a boat has been built and set in motion on these far away upper waters. It reaches into some of the richest of the fur and gold regions of British Columbia, its white and its wheels around the wilderness as far north as the fifty-second and fifty-third parallels.

The construction of this branch or extension of the present Pacific road is the ambition of the Oregon people, and the purpose of the Union Pacific railroad company. It would give the latter a direct connection of their own with the Pacific ocean, and render them in a certain sense independent of the California company. Then a railroad through the woods of Washington Territory, but for ninety miles north from the Columbia river, to Puget Sound and at Olympia, would bring the far North-west into the circle of steam travel and traffic, and go far to anticipate the service allotted to the Northern Pacific railroad. Montana would alone, under this arrangement, be unprovided for; but the Union Pacific company have also in contemplation a branch road in that Territory from their line either at the Green River crossing or from the Salt Lake valley. But this is more doubtful and less inviting enterprise than the Idaho, Oregon and Puget Sound line.

On the other hand, the company owning the California end of the Pacific road propose to reach and accommodate Oregon by a branch starting out from their track in the lower part of the Humboldt valley, and running north-west through the lake region of southern Oregon and over the Cascade mountain to the head of the Willamette valley, up which the Oregon people are already rapidly constructing a railroad line. From a similar starting point in the Humboldt valley, the California Pacific Railroad Company propose to annex Idaho to their end of the route by a branch running north-east. Thus, without waiting for the through northern continental line, whose completion, whatever its claims and necessities, must apparently be postponed for some years, perhaps to another generation, the whole North-west of Idaho, Oregon, Washington and British Columbia are certain to be rapidly joined to the rest of the world in the blessed bands of iron, and made near to us by the swift courses of steam.

Catadian Mail Summary.

[DATES TO JUNE 9TH.]

Mr. Rose's Banking and greenback scheme is likely to fail, and it is said the minister will retire from the Cabinet.

On the 31st May the House of Commons was chiefly occupied with Holton's resolution respecting the Irish Church. McKenzies seconded. Sir John opposed them on the ground that we had no business to interfere in the matter and thought if resolutions passed they would induce counter petitions from Protestants and Irish Catholics.

Howe did not think we should offer our advice to England and run the risk of being snubbed. The resolutions were finally lost.

Mr. Brydges publishes a statement in relation to the exodus of French Canadians to the States, being facts elicited in reply to a circular addressed to the agents of the company. From this, it would appear, that there has been this year a departure of about 200 or 300 families by the Grand Trunk for the States, who have no intention to return, and that in addition there has been an excess of the usual emigration to the factories and brickfields of about 3000 beyond those who usually go every spring, returning in the fall with the products of their industry. It also shows that every train brings back many who had gone to the Western States.

The Synod of the Church of England in the Diocese of Toronto, is summoned to meet in Toronto on Tuesday, June 15th.

A telegram to the St. John Telegraph conveys the intelligence that on Tuesday night, 25th May, the dwelling of Mr. Alexander, a short distance from Burnst, was destroyed by fire. Three persons, two of them children and the other a young woman, were burned to death before assistance could arrive. Mr. Alexander, the unhappy father, was awakened by the hearing under shrieks of his poor children, who slept upstairs, and in attempting to rescue them was so badly burned that his life is despaired of. Unfortunately he could not reach his children and the sufferers were left to the mercy of the flames.

In the House of Commons Mr. Rose has introduced resolutions fixing the legal rate of interest at 6 per cent., per annum, where no rate is stipulated, eight per cent may be charged in case of special agreement, but if any higher rate be demanded the assuer will be entitled to collect only 6 per cent.

William Gleason, manager of a gold mine at Lawrence town, shot his wife with a revolver at their residence near the Mechanics' Institute, Dartmouth. The party had been on bad terms for some time, but no immediate cause is assigned for the act. The ball entered the left side, below the heart. Dr. Weeks was called in and attended the woman. Up to a late hour on the 24th she was still alive, but no hopes of her recovery were entertained.

BUY IT AND TRY IT.—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage.

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of Le Rocky Mountains.

CHEAP SHAVING.—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before.

A. GILMORE, Tailor, wishes to inform his friends and the public that he is selling off the balance of his winter stock at cost to make room for spring goods.

Constitutions contaminated with scrofula are more than any others subject to disease, and of course have far less power to withstand or recover from it. Hence it is in thousands of cases, the real cause of sickness death, where no ulcerous manifestations of the disorder appear. The influence of scrofula is found not only to aggravate the course of diseases, but it originates many of them. Dr. Walker's Vegetable Vinegar Bitters purifies the blood, purging out the rot and corruption that scrofula breeds in it, giving it renewed vitality, and the force of yru thagain.

HOLLOWAY'S PILLS.—These celebrated Pills are essentially useful in purifying the blood cleansing the stomach, gently stimulating the kidneys, and acting as mild aperients. A few doses of this purifying medicine set the foulest stomach right, remove all bilious symptoms, steady the circulation, give strength to the muscles and composure to the brain and nerves. The Pills are so innocuous that they may be taken by persons in the most delicate state of health, and with marvellous effect. When the system has been enervated by over-indulgence, or exhausted by moral preparations, these Pills are excellent restoratives, they expel the poison and enrich the blood.

A PERFUMED TOOTH-WASH!

Mix a teaspoonful of MURRAY & LANMAN'S Florida Water in a tumbler of pure, soft water, and you will have a tooth-wash far superior to all the lotions and dentifrices ever offered for sale. It will not injure the enamel; it will heal all tenderness or soreness of the gums or mouth, and will depart the most delightful fragrance to the breath.

As there are counterfeiters, buyers should always ask for the Florida Water prepared by the sole proprietors, Lanman & Kemp, New York. 559.

MORE THAN 200,000 Persons

Bear testimony to the Wonderful Curative Effects of

Dr. Joseph Walker's

CALIFORNIA VINEGAR BITTERS.

Manufactured from the native Herbs and Roots of California.

VS. The Great Blood Purifier. FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA OR INDIGESTION, BILIOUS REMITTENT AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD which is generally produced by derangement of the digestive organs.

Cleanse the vitiated blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.
